

# Marsham Court Hotel – Sustainability Policy

The Marsham Court Hotel recognises its responsibility to respect the environment and will strive to achieve environmental best practices and continual improvement throughout its business activity. The owners of the Marsham Court Hotel and its staff will play an increasing role in building a sustainable future.

The Directors are committed to reducing the hotels carbon footprint and our aims wherever possible will be to :

- Reduce energy consumption and CO2 emissions
- Reduce water consumption
- Reduce the amount of waste generated by reusing and recycling
- Consider environmental factors when purchasing items
- Ensure staff and guests are aware of all our green issues and encourage them to assist in achieving our goals
- Consider energy and green issues when completing hotel refurbishments
- Support and work with local communities and fund raising charities.
